This year the BSPR Annual Meeting will take place at the Royal OverSeas League (ROSL), Park Place, St James's Street, London SW1A 1LR (near the Ritz) over Thursday-Friday November 10-11, 2016. The nearest tube station to ROSL is Green Park.

Topics covered will include paediatric oncology, post-mortem imaging, computer-aided diagnosis, respiratory and renal diseases, and radiological aspects of the neurosciences. Parallel breakout sessions will occur for some industry presentations, radiology outreach, and there will be a radiographer session on Friday afternoon also. A general quiz with two selected teams should provide some education and light relief.

The annual dinner will be held on Thursday November 10th at The Worshipful Society of Apothecaries of London, Black Friars Lane, London EC4V 6EJ. The Worshipful Society of Apothecaries of London is one of the largest of the City Of London's Livery Companies with over 1800 members, 85% of whom have a medical qualification registrable with the General Medical Council, or a pharmacist's qualification registrable with the General Pharmaceutical Council. The BSPR dinner will take place in the Great Hall whose oak panelling dates from 1671.

BSPR 2016 welcomes all those practicing, training or interested in paediatric radiology including radiographers, sonographers and other staff who are an essential part of a paediatric radiology service.
